STC™: Changes Pre/Post Assessment

Pre-Assessment: Listen as your teacher reads each statement below. If you think the statement is TRUE, write a T in the Before Unit column. If you think the statement is NOT TRUE, write an F in the Before Unit column.

Post-Assessment: Listen as your teacher reads each statement below. If you think the statement is TRUE, write a T in the After Unit column. If you think the statement is NOT TRUE, write an F in the After Unit column.

Statement #	Before Unit Write T or F	Statement	After Unit Write T or F
1		Changes occur all the time in the world around us.	
2		Substances can be classified as solids, liquids, or gases.	
3		Water can freeze into a solid and then melt into a liquid again.	
4		Water can evaporate into a gas and then melt into a liquid again.	
5		A substance can change in appearance yet remain the same substance.	
6		Some mixtures can be separated.	
7		When some solids are added to water, they dissolve and seem to disappear.	
8		Some dissolved solids can be recovered through evaporation.	
9		When two or more substances are mixed, a chemical reaction may occur.
